BVI Ports Authority Acquires parcels of land on Virgin Gorda

Tortola, British Virgin Islands, October 9, 2020 - The British Virgin Islands Ports Authority (BVIPA) would like to inform the public of the Authority’s investment in parcels of land located in Virgin Gorda. They were purchased to expand the Virgin Gorda port facility by separating the cargo and passenger ports. Located in close proximity to the current St. Thomas Bay facility on Virgin Gorda makes it the ideal location for port expansion. The separation of these ports has been a part of the BVI Ports Authority’s expansion plans for an extended period of time.

Prior to the acquisition of the land, the BVIPA requested an appraisal by one of the territory’s reputable appraisal companies. The BVIPA was guided by the figure provided by the appraisal company and moved forward based on information provided in the appraisal. The acquisition of parcels of land on Virgin Gorda is a step forward in the BVIPA’s mission of providing superior quality seaport facilities and services. The BVI Ports Authority Board and management team are pleased that they have been able to accomplish this goal in the pursuit to keep the BVI moving.
ABOUT THE BRITISH VIRGIN ISLANDS PORTS AUTHORITY

The BVI Ports Authority is the managing authority for all official Sea Ports within the British Virgin Islands inclusive of the 60ft wide, 1,312 ft. long cruise pier that can berth ships up to a maximum tonnage of 180,000 GRT. The BVIPA is responsible for the welcoming and safe arrival of seafaring passengers, as well as the reception, handling and security of cargo and sea based trade.
